

Carol Singing Event at Scottish Church College

Members of AICUF represented the Loreto College at a carol singing programme held at Scottish Church College. The event brought together students from various colleges as well as representatives from different churches, creating a vibrant atmosphere of shared celebration and fellowship during the Christmas season.

Each participating college and church presented their own set of Christmas carols and songs. The AICUF representatives performed a selected set of carols, contributing to the festive spirit of the programme. The event provided a platform for cultural and musical exchange, while also fostering unity and collaboration among institutions and faith communities.

The carol singing programme was a meaningful celebration of the message of Christmas, emphasizing harmony, joy, and togetherness. Participation in the event strengthened inter-college bonds and offered students an enriching experience beyond the classroom.
